

NANOCAD INSTALLATION GUIDE

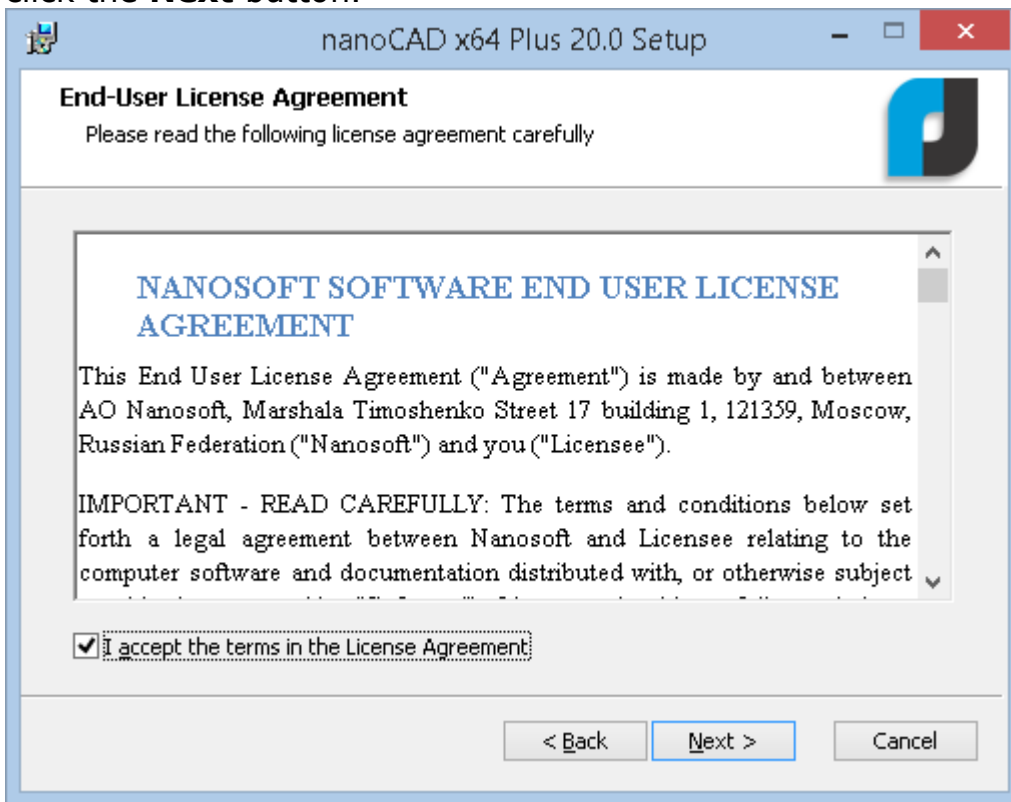

Installation

When the downloading process has finished, the **Setup Wizard** dialog window appears.

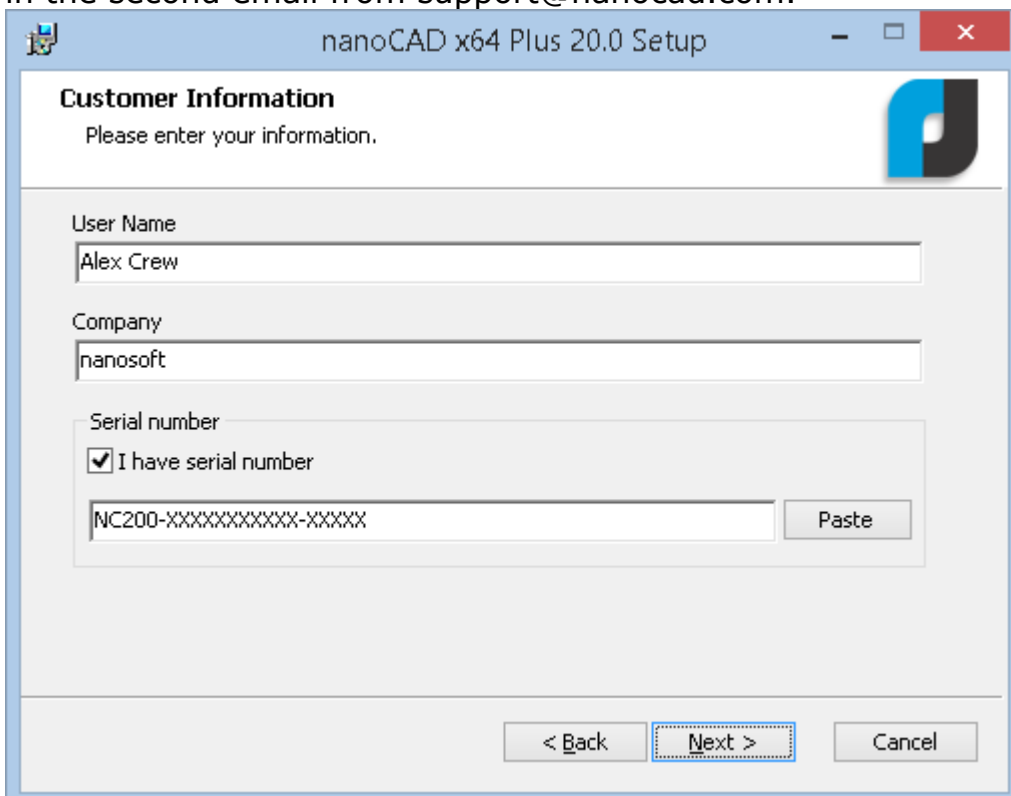

Click the **Next** button to continue.

In the dialog window read the End-User License Agreement. To continue check **I accept the terms in the License Agreement** checkbox and click the **Next** button.

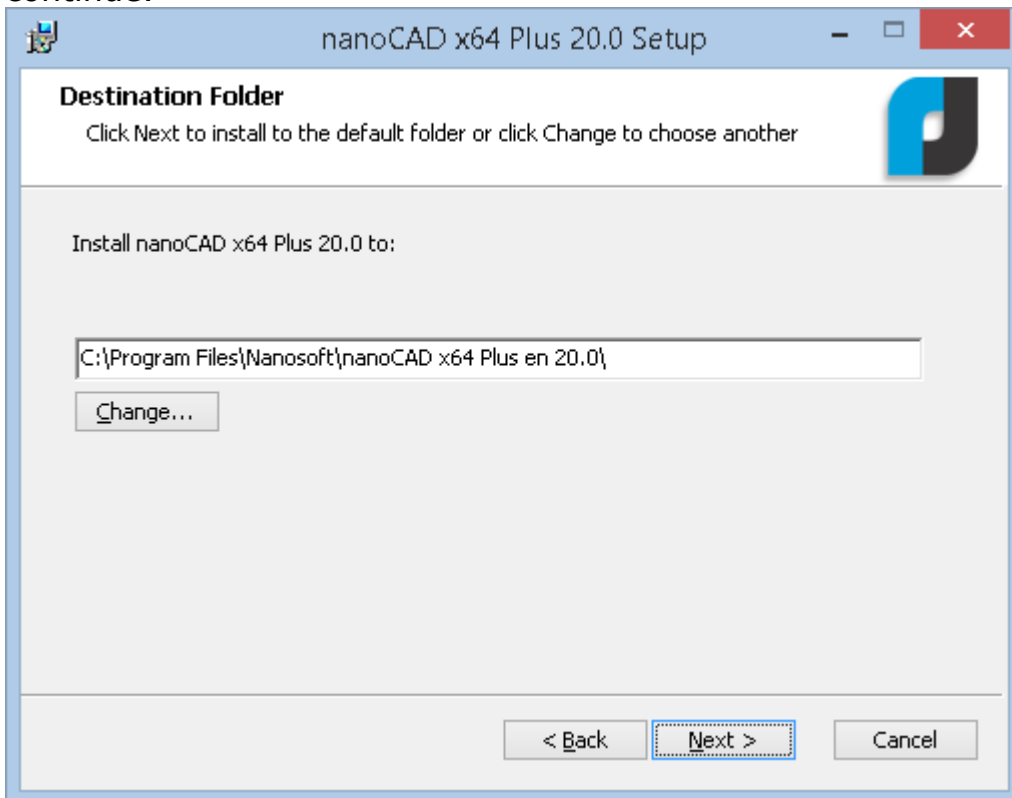

Enter your name, company and serial number, which you have received in the second email from support@nanocad.com.

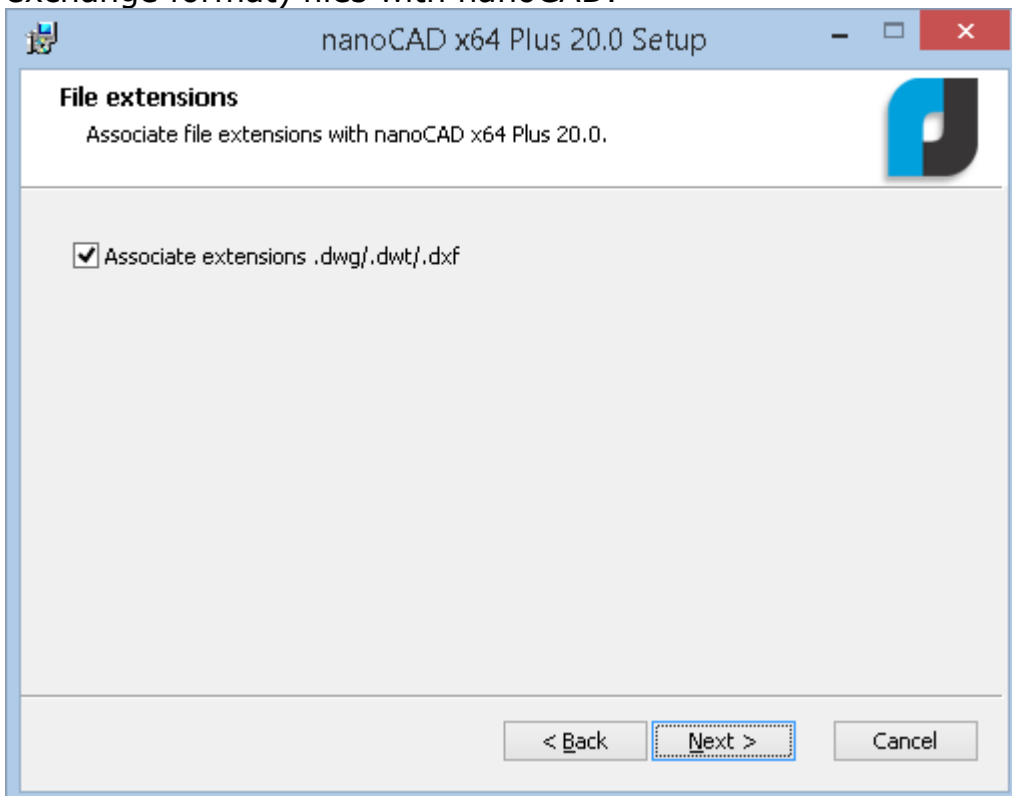

Click the **Next** button to continue.

Choose location of the installation folder and click the **Next** button to continue.

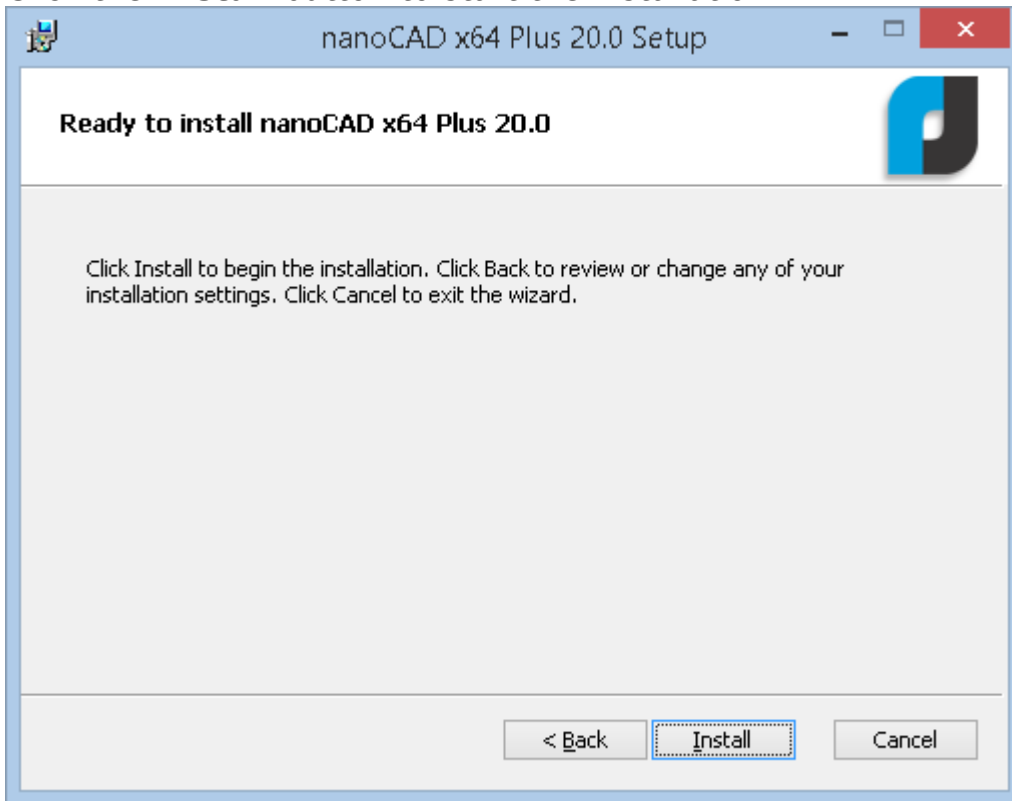

Associate .dwg (drawing), .dwt (drawing template) and .dxf (drawing exchange format) files with nanoCAD.

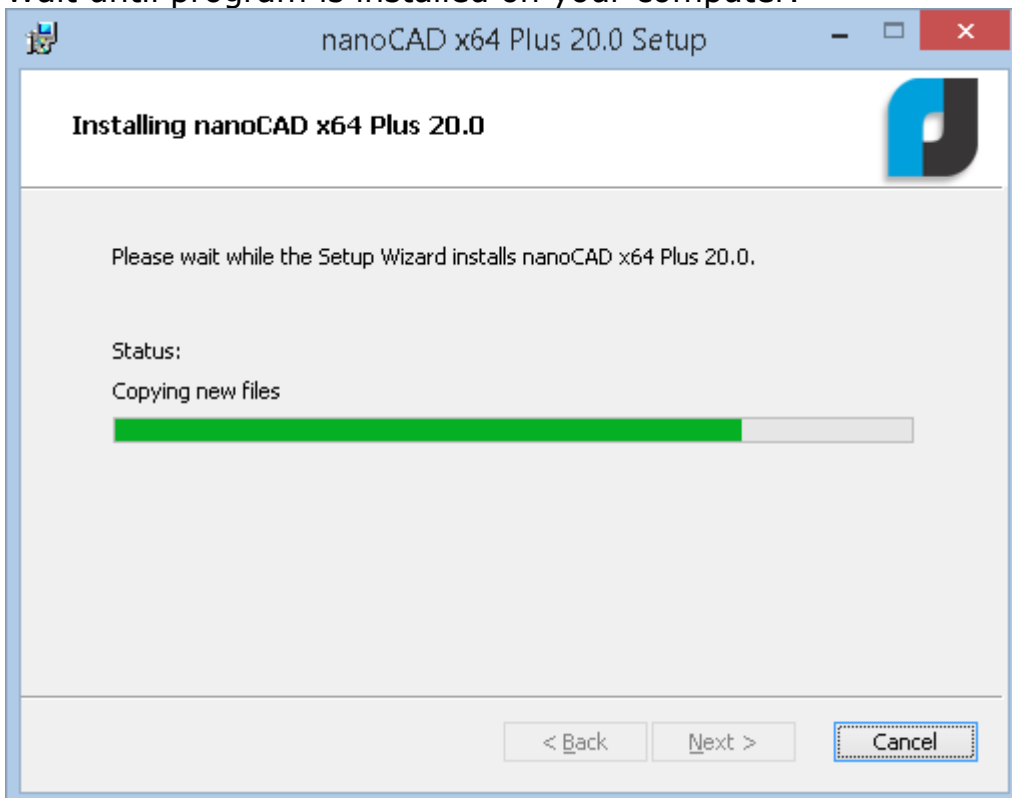

Click the **Next** button to continue.

Click the **Install** button to start the installation.

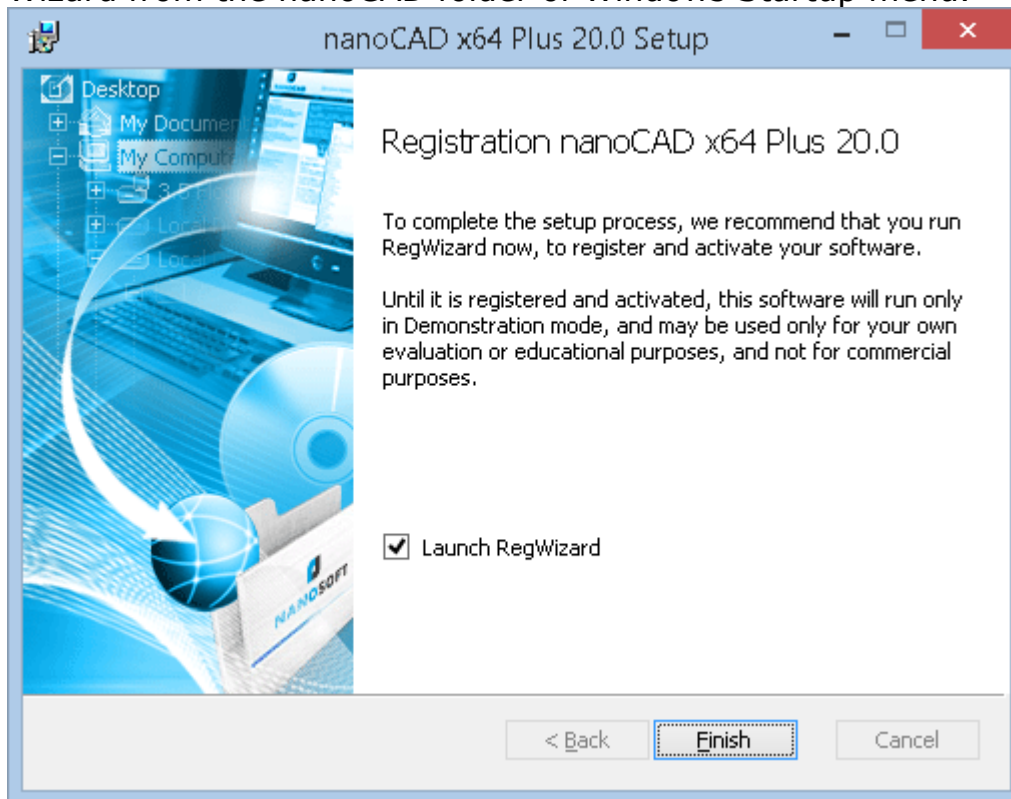

Wait until program is installed on your computer.

You should register nanoCAD to use it without limitations. Registration is free and you will be granted a one-year renewable license for nanoCAD. Check **Launch RegWizard** checkbox to get it right now.

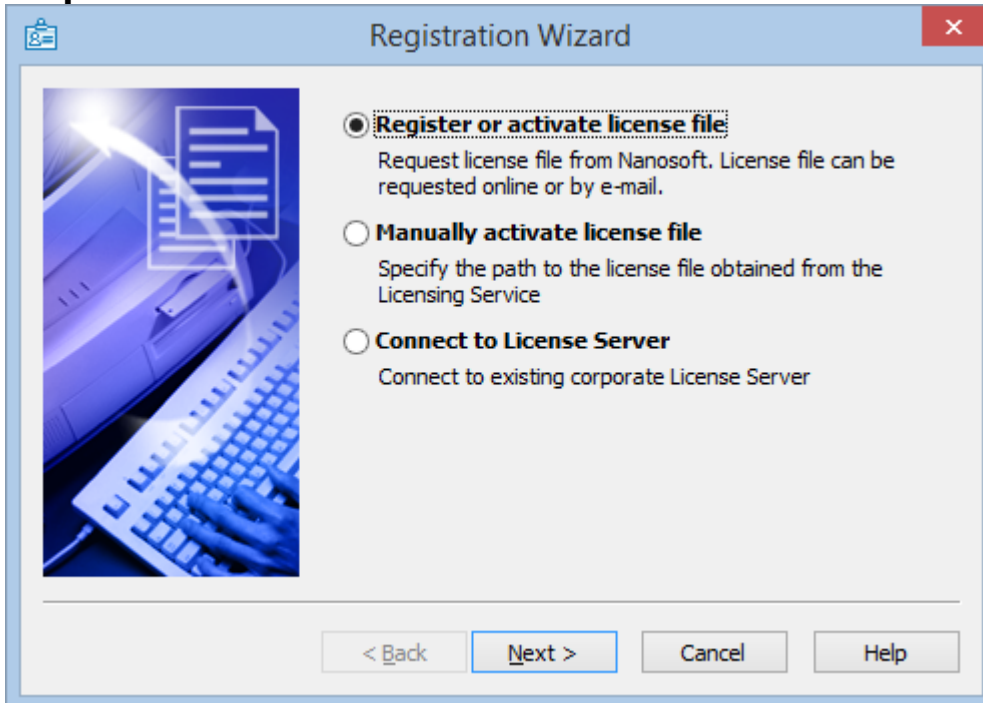

It is also possible get a nanoCAD license later. To do so run Registration Wizard from the nanoCAD folder of Windows Startup menu.

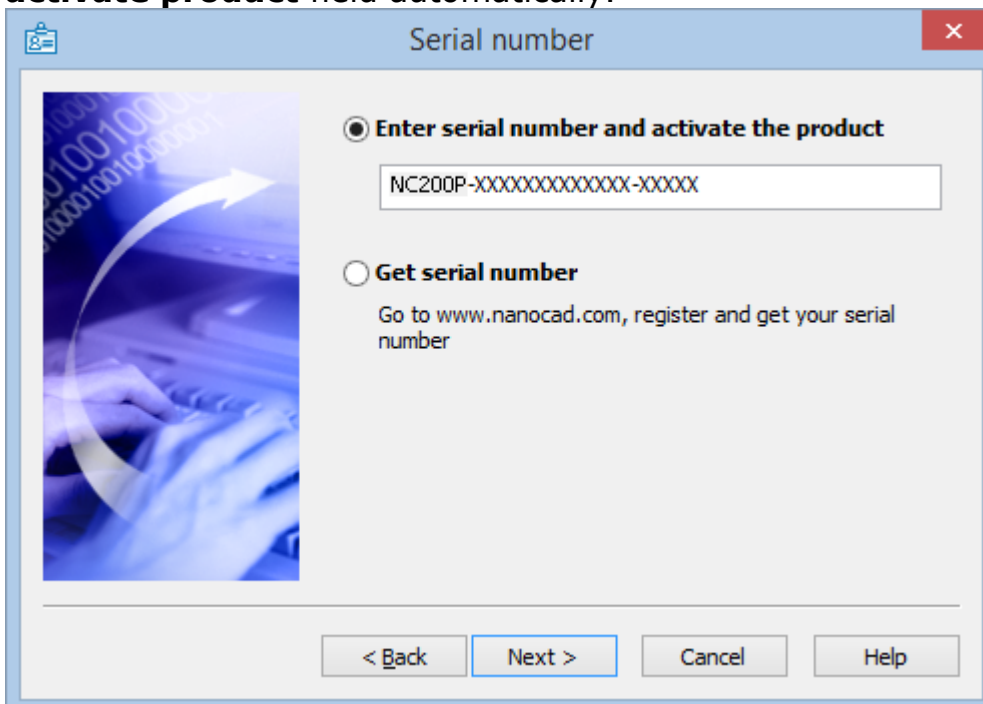

Click **Finish** to finish installation.

Registration

The Registration Wizard will guide you. To request a license, select **Request or activate license file** and click the **Next** button to continue.

The serial number will be filled in the **Enter serial number and activate product** field automatically.

Click the **Next** button to continue.

In the **User authentication** dialog window fill in the fields of the **User information** section. Use the login and password you've received in the second email to obtain your license online.

The 'User authentication' dialog window contains the following fields and options:

- User information section:**
 - Person: Alex Crew
 - Company: nanosoft
 - Country: Christmas Island
- Authenticate on www.nanocad.com section:**
 - Login: alexcrew@nanocad.com
 - Password isn't required for authentication.
